THE CONSENSUS SHEET

The morning-line top four, graded six ways — the Daily Racing Form's consensus method, with our pick carrying the best-bet bonus

MONDAY, NOVEMBER 2, 2026 · 35 RACES

Picks as filed under Selection Protocol v3.11 (§25 in force). The consensus totals are a display of the filed card; the v3.12 consensus confirmation (§26) is adopted and in wiring — it did not decide this card's picks.

HOW TO READ THIS SHEET

Each race shows its **morning-line top 4**. Six factors — morning line, weight, speed, and early / mid / late pace — are scored across the **full field** in the Daily Racing Form's consensus method: each factor awards **5 points to its #1 horse, 2 to #2, 1 to #3**. **PTS** is a horse's factor points. Our filed pick carries a **7-point best-bet bonus** inside the totals — the Form's best-bet treatment — and **TOTAL** is PTS with that bonus in. Rows are ordered by TOTAL, and **the top horse in each race is the consensus pick**. **FAIR** is our blend's fair odds where the race is covered ("—" where it is not). WGT is our handicap weight in pounds; SPD is our speed figure on a 100 base; the pace columns are field percentiles. 32 of 35 races carry a filed pick; post times are Eastern.

This consensus sheet is AI-produced. The picks, the pace sheets, and the podcast are all produced by AI. Rankings follow the morning line.

Picks as filed under Selection Protocol v3.11 (§25 in force). The consensus totals are a display of the filed card; the v3.12 consensus confirmation (§26) is adopted and in wiring — it did not decide this card's picks.
